Dr. Hatcher,

I want you to read the report that was issued by the DuPage Children Center. Can you feel the pain and the anguish my children are dealing due to your unethical and illegal behavior. A person who holds a lince as a physchiatrist whose duties are for the understanding and helping those who need mental health. Reading the report do you not have any remorse for the pain you are causing my kids?

I am going to make sure you pay for your crimes, a person like you should not be allow to practice physchiatry!

You had a responsibility to look after the well being of my kids and not hurt them. You are a criminal, during one of the sessions I had with you I confronted you as why Judge Louis Aranda knew to ask Wendy Musilak to call you a during a hearing and why she had your number in her cell phone, since you had told me you had never spoken before this case. You resounded that the judge had put Wendy in charge of communication with you and to report to the court. I find it very strange that Wendy's reported records has it that you two have only spoken once.

What I find even more strange, is how you and Chuck Robert's seem to be in constant communication. This raising concerns regarding your relationship with the attorney of my husband. Also, despite Wendy and Chuck knowing the crimes that you have committed they continue to push me to see you?

The judge once even admitted that your opinions regarding my mental health were pre-determined prior conducting any evaluation.

I find it extremely disturbing that while Thomas was being investigated by DCFS and with the numerous allegations of abuse against him and even more concerning by the kids in your affidavit you had the audacity to suggest that he fit to parent and that I was not and recommended that I have my parental rights taken away because I was the one that posses a danger to them, look at the reposts again attached and let me know of the kids seemed to be in danger by me and why they keep demanding to come back to me.

Can you explain to me why this continue push to have you see me and the kids?

I hope justice is around the corner for you! You are the worse of human kind to take my kids away from me!!!
