Dear Wendy Musielak,

I am writing to bring to your attention my deep concerns regarding your conduct in my divorce case. As the GAL appointed by Judge Louis Aranda, your actions have raised serious red flags that cannot be overlooked.

I have observed a pattern of behavior where you consistently omit Tom's name and any communication that implicates him in any wrongdoing. This selective exclusion is evident in the recent order that was issued, where you intentionally left out Tom's name when referencing the investigation into allegations of child abuse. This deliberate omission is present in every document I have reviewed, and you are purposefully shielding him from any accusations.

On the contrary, you have shown no hesitation in associating my name with unfounded allegations and accusations of wrongdoing. Your biased treatment and apparent cover-up of Tom's actions are unacceptable and raise serious ethical concerns.

I want to make it unequivocally clear that I will not tolerate any further violations of the law or any attempts to manipulate the truth in this case. Your actions will not go unnoticed, and I am committed to ensuring that your misconduct is brought to light.

Moving forward, I will take every necessary step to expose your unethical behavior and hold you accountable for your actions. It is time for transparency and integrity to prevail in this case, and I will not rest until justice is served. Any person that you speak with I need to be aware to hold you accountable of any efforts to cover up child abuse. You have stopped many investigations with your claim of mental health to cover up child abuse and your crimes. No more!

Please be advised that I will be informing all relevant parties of your actions and ensuring that the truth is known. The time for deception and manipulation is over, and I urge you to reconsider your approach before further consequences arise.

I have also noticed a consistent pattern in which you repeatedly request the court to seal records that pertain to your own criminal activities. Upon reviewing past court hearings, it seems that whenever you are implicated in wrongdoing, the court mysteriously seals the proceedings. I will be thoroughly examining these records to ensure that your true nature as a criminal is exposed.

Your persistent abuse of the legal system to conceal your crimes is appalling. It is unacceptable that you manipulate court hearings to cover up your unlawful actions. Your repeated requests to seal records and motions only serve to abuse your power and subvert justice in the courtroom. I find it alarming that such behavior is allowed to continue unchecked.

I am deeply troubled how you also the aided Thomas Neal and others in concealing their abuses as well. Rest assured; I will not rest until you are held accountable for your actions. I urge you to consider resigning, as your presence in this case is contributing to the ongoing abuse my children are suffering at the hands of Thomas Neal and harm the unrepairable harm you have done to my life. It is time for you to step down and take responsibility for the harm you have caused.

Your actions will not go unnoticed, and I am committed to ensuring that justice prevails in this case. The crimes you have committed will not be swept under the rug, and I will pursue every avenue to bring them to light. Every day I am separated by my children to keep them in the hands of their abusive father is another day I have to fight for justice.

Mario Neal
